STEAM Lesson 1

SCIENCE: SOLIDS AND LIQUIDS

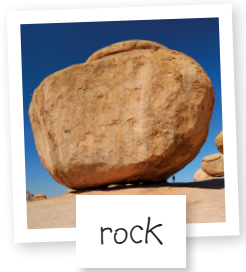
I will learn about solids and liquids.

Watch a video about solids and liquids.

1 040 Listen and read.

waterfall

Water is a liquid. It has no shape. It isn't round or square. It isn't hard. It isn't soft.



rock

A rock is a solid. It has a shape. Solids have different shapes. This rock is round. Some solids are soft and some are hard. This rock is hard.

frozen waterfall

Liquids and solids can change.

This water isn't a liquid now. It's a solid.

2 Write *L* for liquid, *S* for solid.
